

AMENDMENTS TO THE CLAIMS

This listing of claims will replace all prior versions and listings of claims in the application:

LISTING OF CLAIMS:

1-4. (canceled).

5. (new): A fastening device for anchorage in a receiving aperture in a plate comprising a main body having a threaded hole, projecting sidewalls disposed in said aperture, projecting end portions extending beneath said plate and a wire cage having parallel bottom arms extending beneath said fastening device and extending upwardly through said aperture on opposite sides of said end portions of the main body and outwardly above said plate in opposite directions.

6. (new): A fastening device is set forth in claim 5 wherein said parallel bottom arms extend beneath said projecting sidewalls respectively.

7. (new): A fastening device is set forth in claim 6 wherein one of said projecting end portions is longer than the other projecting end portion.

8. (new): A fastening device is set forth in claim 7 wherein the upwardly extended portions of said wire cage on opposite sides of said longer end portion are spaced from said projecting side walls and the upwardly extending portions of said wire cage on opposite sides of the other projecting end portion are disposed adjacent the projecting side walls whereby upon moving the longer projecting end portion further beneath said plate against the upwardly

Amendment under 37 C.F.R. § 1.111
U.S. Application No. 10/800,912

Attorney Docket No. Q80455

projected portions of the wire cage on opposite sides of the longer end portion, the other projecting end portion may be inserted and removed through said threaded hole.
